👤 PROFESSIONAL SUMMARY

Enthusiastic BCA fresher with hands-on experience building full-stack web applications using Java 17, Spring Boot, React.js, and MySQL. Delivered 4+ end-to-end projects including a multilingual real-time chat application, an AI-powered e-commerce platform, and a college ERP system — demonstrating strong command of REST APIs, JWT security, WebSocket communication, and responsive UI design. Proficient in OOP concepts, MVC architecture, and SOLID principles with exposure to microservices design patterns. Passionate about writing clean, scalable code and eager to contribute to product-driven engineering teams.

🔧 TECHNICAL SKILLS

Languages:	Java, Python, SQL, JavaScript	Frontend:	HTML5, CSS3, React.js, React Hooks, Axios, Bootstrap 5
Backend:	Spring Boot, Spring MVC, Spring Security, REST API, WebSocket, Microservices (Basics), JUnit, Mockito	Database:	MySQL, Spring Data JPA, JDBC, SQL Query Design
Auth:	JWT, BCrypt, Session Management, CORS, Input Validation	Tools:	Git, GitHub, Maven, Postman, Eclipse, VS Code
Architecture:	MVC (separates model, view, controller layers) DAO (abstracts database access logic) DTO (transfers data without exposing internal entities) OOP Concepts (classes, inheritance, encapsulation, polymorphism)		

📁 PROJECTS

LinguaChat – Real-Time Multilingual Chat Application

Tech Stack: Java 17 | Spring Boot | Spring Security | JWT | WebSocket | STOMP | MySQL | HTML | CSS | JavaScript

- ▶ Built a WhatsApp Web-inspired full-stack chat application with JWT authentication, WebSocket real-time messaging, and automatic message translation across 5 languages (English, Hindi, Tamil, French, Spanish).
- ▶ Features include emoji picker, typing indicator, read receipts, message edit/delete, file attachments, and WebRTC voice/video call signaling.
- ▶ Implemented secure REST APIs with input validation and CORS configuration to ensure robust backend communication.

Bhuvi Style – Full Stack E-Commerce Website

Tech Stack: Java 17 | Spring Boot 3 | Spring Security | JWT | Spring Data JPA | MySQL | HTML | CSS | JavaScript

- ▶ Developed a full-stack e-commerce platform with product browsing, cart, wishlist, order management, and an admin dashboard with image upload across 9 product categories.
- ▶ Implemented JWT-secured REST APIs and BCrypt authentication, ensuring safe and reliable user session management.
- ▶ Integrated OpenAI GPT API to power an AI-driven fashion chatbot that suggests outfits and products based on user preferences and browsing history.

CampusERP – Student Management System

Tech Stack: React.js | Vite | Bootstrap 5 | Spring Boot 3 | Spring Security | JWT | MySQL | iText PDF | Apache POI

- ▶ Built a college ERP system with React frontend and Spring Boot REST API for student, staff, course, attendance, and marks management with JWT authentication — handling 200+ student records with role-based access control.
- ▶ Implemented a fees module with PDF receipt generation (iText PDF), Excel data export (Apache POI), and an analytics dashboard using Chart.js for real-time academic insights.

FlavorVault – Zomato Clone Restaurant Review Platform

Tech Stack: HTML5 | CSS3 | JavaScript (ES6+) | LocalStorage

- ▶ Designed a restaurant discovery platform featuring a dark glassmorphic UI, debounced search, cuisine filters, star rating breakdown, and live review CRUD operations.
- ▶ Built with zero external dependencies using vanilla JavaScript, demonstrating strong core JS fundamentals with route-protected authentication, an analytics dashboard, and a fully responsive mobile layout.

🏆 CERTIFICATIONS & ACHIEVEMENTS

• Java Full Stack Developer – Systech Group (2024)	• Object Oriented Programming (Python) – Infosys Springboard (2024)
• Advanced Python Programming – Soft & Soft Computers (2023)	• Full Stack Python Workshop – Nexial Technologies (2023)
• Web Development Fundamentals – TNSDC (2023)	• Hackathon Project-Based Learning – ICT Academy (2024)
• Learnathon Participant – ICT Academy (2024)	

🎓 EDUCATION

Bachelor of Computer Applications (BCA)

2023 – 2026

Bharathidasan University, Tiruchirappalli

Percentage: 74% (Aggregate)

Relevant Coursework: Data Structures, Database Management Systems (DBMS), Object-Oriented Programming, Operating Systems, Computer Networks, Web Technologies
